SECTION – A : ENGLISH

Directions (Q. 1 – 6) : The questions in this section are based on the passage. The questions are to be answered on the basis of what is **stated** or **implied** in the passage. For some of the questions, more than one of the choices could conceivably answer the question. However, you are to choose the **best** answer; that is, the response that most accurately and completely answers the questions.

The Constitution of the United States protects both property rights and freedom of speech. At times these rights conflict. Resolution then requires a determination as to the type of property involved. If the property is private and not open to the general public, the owner may absolutely deny the exercise of the right of free speech thereon. On the other hand, if public land is at issue, the First Amendment protections of expression are applicable. However, the exercise of free speech thereon is not absolute. Rather it is necessary to determine the appropriateness of the forum. This requires that consideration be given to a number of factors including: character and normal use of the property, the extent to which it is open to the public, and the number and types of persons who frequent it. If the forum is clearly public or clearly private, the resolution of the greater of rights is relatively straight forward.

In the area of quasi-public property, balancing these rights has produced a dilemma. This is the situation when a private owner permits the general public to use his property. When persons seek to use the land for passing out handbills or picketing, how is a conflict between property rights and freedom of expression resolved ?

The precept that a private property owner surrenders his rights in proportion to the extent to which he opens up his property to the public is not new. In 1675, Lord Chief Justice Hale wrote that when private property is "affected with a public interest, it ceases to be private." Throughout the development of Anglo-American law, the individual has never possessed absolute dominion over property. Land becomes clothed with a public interest when the owner devotes his property to a use in which the public has an interest. In support of this position the chairman of the board of the Wilde Lake Shopping Centre in Columbia, Maryland said :

The only real purpose and justification of any of these centres is to serve the people in the area – not the merchants, not the developers, not the architects. The success or failure of a regional shopping centre will be measured by what it does for the people it seeks to serve.

These doctrines should be applied when accommodation must be made between a shopping centre owner's private property rights and the public's right to free expression. It is hoped that when the Court is asked to balance these conflicting rights it will keep in mind what Justice Black said in 1945: "When we balance the constitutional rights of owners of property against those of the people to enjoy (First Amendment) freedom(s) we remain mindful of the fact that the latter occupy a preferred position."

SECTION – C : LEGAL APTITUDE

Directions (Q. 71 – Q. 95) : Given below is a statement of legal principle followed by a factual situation. Apply the principle to the facts given below and select the most appropriate answer.

71. **LEGAL PRINCIPLE :** A statement is defamatory in nature if it is injurious to a person's reputation and if the statement has been published.

FACTUAL SITUATION : Rudra had been dating a girl named Kiara for three weeks. But he had introduced himself to her as Ricky Thakur (who is one of Rudra's friends) and he continued to be Ricky for the rest of their relationship. But ultimately the relationship ended badly and Kiara being upset and angry at Rudra started a website named 'ricky-thakur-is-a-jerk.com'. She created this website so as to warn other girls about 'Ricky Thakur'. The real Ricky Thakur files a suit for defamation. Decide.

DECISION :

- (a) Kiara shall be held liable for defamation as she published a statement which was injurious to Ricky's reputation.
 - (b) Rudra shall be held liable as he had led Kiara into thinking that he was Ricky Thakur and moreover, it was his fault in the first place that made Kiara create this website.
 - (c) Kiara cannot be held liable as she had actually been referring to Rudra and not the real Ricky Thakur.
 - (d) Kiara cannot be held liable as her act was done in good faith as she intended to warn other girls.
72. **LEGAL PRINCIPLE :** Whoever stores a substance which could cause damage on escape shall be absolutely liable (i.e. liable even when he has exercised necessary care) for any damage caused by the escape of the substance.

FACTUAL SITUATION : Union Carbide India Limited (UCIL) manufactured methyl isocyanate, an extremely toxic gas. Due to a storm, the gas that was being stored in sealed containers got released. Before much could happen, the local municipal authorities managed to contain the disaster. The authorities filed a suit against UCIL for the costs that were incurred in decontamination. However, later it was realized that the clean-up by the authorities could have been done without spending as much resources and the damage was not that significant. UCIL argued that it would pay only part of the amount demanded by the authorities, which could have dealt with the contamination.

DECISION :

- (a) UCIL is liable only to the extent of contamination caused. It does not need to pay the authorities the entire amount demanded by them.
- (b) The authorities are entitled to the whole sum, as UCIL shall be held liable for all the repercussions of their act even if they had exercised due care.
- (c) UCIL can plead that the escape of the gas had been caused by a storm and not due to its own negligence. It was an inevitable accident.
- (d) The municipal authorities should have analyzed the damage first before jumping into action. It was due to their own negligence because of which they had to shell out more than required.

73. **LEGAL PRINCIPLE :** A partner is liable for the debts incurred by the other partners in the course of partnership.

FACTUAL SITUATION : Satwik and Prateek enter into a partnership to produce a film, wherein Satwik also directs the movie. The movie bombed at the box office. Consequently, they run into financial difficulties and the partnership ends. Prateek goes to Abbas to borrow some money, which Abbas understands is for repaying the debts from the partnership. Prateek takes the money and absconds to Malibu. Abbas sues Satwik for the amount. Decide.

DECISION :

- Satwik is liable to return the money as it was his partner, Prateek, who directed the movie.
 - Abbas has been negligent in not properly enquiring the purpose for which Prateek borrowed the money. Satwik is not liable to pay him back according to the principle of contributory negligence.
 - Satwik is not liable as Prateek absconded with the money instead of using it to pay off the debts in the partnership.
 - Satwik is not liable as by the time Prateek borrowed money from Abbas, the partnership was no more in existence.
74. **LEGAL PRINCIPLE :** Everybody is under a legal obligation to take reasonable care to avoid act or omission which he can foresee would injure his neighbour, the neighbour for this purpose is any person whom he should have in his mind as likely to be affected by his act.

FACTUAL SITUATION : Krish, while driving a car at a high speed in a crowded road, knocked down a cyclist. The cyclist died on the spot with a lot of blood spilling around, Lekha, a pregnant woman passing by, suffered from a nervous shock, leading to abortion. Lekha filed a suit against Krishnan claiming damages.

DECISION :

- Krish will be liable, because he owed a duty of reasonable care to everybody on the road including Lekha.
 - Krish will not be liable, because he could not have foreseen Lekha suffering from nervous shock as a result of his act.
 - Krish will be liable to Lekha because he failed to drive carefully.
 - None of the above.
75. **LEGAL PRINCIPLE :** The occupier of a premise owes a duty of care to all his invitees and visitors.

FACTUAL SITUATION : Lalit was running a dairy from his house. People used a part of his farm as shortcut to get to a nearby railway station. Lalit who did not approve of this, put up a notice that "Trespassers will be prosecuted". However since a number of these people were also his customers he tolerated them. One day a person who was using this short cut was attacked by a bull belonging to the farm. The injured person filed a suit against him.

DECISION :

- Lalit is not liable in view of the clear notice against trespassers.
- Lalit is liable for having kept a bull on his farm.
- Lalit, is not liable to the people other than his customers.
- Lalit is liable because in fact he allowed the people to use his premises.

76. **LEGAL PRINCIPLE** : A master shall be liable for the acts of his servants done in the course of employment.

FACTUAL SITUATION : PUL, a public sector undertaking, is operating a number of bus services for its employees in Pune. These buses are quite distinct in their appearance and carry the board "for PUL employees only". M, a villager from neighbouring state, was waiting for a regular bus in one of the bus stops in Pune. A bus belonging to PUL happened to stop nearby and number of people got into the bus. M, without realizing that it was PUL bus, got into the bus and soon thereafter, the bus met with an accident due to driver's negligence. M, along with several others, was injured in the accident. M seeks to file a suit against PUL claiming damages.

DECISION :

- (a) M will succeed, because he got into the bus without realizing that it was PUL bus.
 - (b) M will not succeed, because it was for him to find out whether it was a public transport.
 - (c) M will succeed, because the driver was anyhow duty-bound to drive carefully.
 - (d) PUL is not liable as the bus met with an accident due to driver's negligence.
77. **LEGAL PRINCIPLE** : Only Parliament or State Legislatures have the authority to enact laws on their own. No law made by the State can take away a person's fundamental right.

FACTUAL SITUATION : Parliament enacted a law, which according to a group of lawyers is violating the fundamental rights of traders. A group of lawyers files a writ petition challenging the Constitutional validity of the statute seeking relief to quash the statute and further direct Parliament to enact a new law.

DECISION :

- (a) The court can quash the existing law if it violates fundamental rights but cannot direct Parliament to make a new law.
- (b) The court can quash existing law if it violates fundamental rights and can direct Parliament to make a new law.
- (c) No writ would lie against Parliament, as the court has no authority to direct Parliament to enact or re-enact a law.
- (d) The court cannot quash the law as reasonable restrictions can be put on the fundamental rights.

78. **LEGAL PRINCIPLE** : When one person signifies to another his willingness to do or abstain from doing anything, with a view to obtaining the assent of that person to such an act or abstinence, he is said to have made a proposal.

FACTUAL SITUATION : Ram sends a telegram to Sohan, writing: "Will you sell me your Rolls Royce car? Telegram the lowest cash price." Sohan also replied by telegram: "Lowest price for car is Rs. 20 lakh." Ram immediately sent his consent through telegram stating: "I agree to buy the car for Rs. 20 lakh asked by you." Sohan refused to sell the car.

DECISION :

SECTION – D : REASONING

106. At birth we have no self-image. We cannot distinguish anything from the confusion of light and sound around us. From this beginning of no-dimension, we gradually begin to differentiate our body from our environment and develop a sense of identity, with the realisation that we are a separate and independent human being. We then begin to develop a conscience, the sense of right and wrong. Further, we develop social consciousness, where we become aware that we live with other people. Finally, we develop a sense of values, which is our overall estimation of our worth in the world.

Which one of the following would be the best completion of this passage ?

- (a) The sum total of all these developments we call the self-image or the self-concept.
 - (b) This estimation of worth is only relative to our value system.
 - (c) Therefore, our social consciousness is dependent on our sense of values.
 - (d) The sum total of living with other people and developing a sense of values makes us a total person.
107. Violence against racial and religious minority groups increased sharply throughout the county last year, despite a slight decline in state wide figures. Compiling incidents from police departments and private watchdog groups, the County Human Relations Committee reported almost 500 hate crimes in the year, up from only 200 last year. It was the first increase since the committee began to report a yearly figure six years ago. The lower state wide figures are probably in error due to underreporting in other counties; underreporting is the major problem that state surveyors face each year.

All of the following, if true, would support the conclusion or the explanation of the discrepancy in the state and county figures EXCEPT:

- (a) The number of hate crimes and those resulting in fatalities has increased in neighbouring states.
 - (b) Anti-immigration sentiment was fanned this year by an anti-immigration ballot referendum.
 - (c) Many law-abiding members of minority groups are fearful or distrustful of the police.
 - (d) All of the counties in the state have active private watchdog groups that carefully monitor hate crimes.

Which one of the following helps to resolve an apparent discrepancy in the information above ?

- (a) Neighbourhood Watch programs have always been active in Sand Beach.
- (b) The number of reported burglaries and robberies in Sandy Beach has increased in the last three years.
- (c) Compared to other cities in the state, Sandy Beach has one of the lowest crime rates.
- (d) Many of the residents of Sandy Beach have installed expensive security systems in their homes.

109. To be admitted to Bigshot University, you must have a 3.5 grade-point average (GPA) and a score of 800 on the admission test, a 3.0 GPA and a score of 1,000 on the admission test, or a 2.5 GPA and a score of 1,200 on the admission test. A sliding scale exists for the other scores and GPAs.

Which one of the following is inconsistent with the above?

- (a) Jagan was admitted with a 2.7 GPA and a score of 1,100 on the admission test.
- (b) No student with a score less than 800 on the admission test and a 3.4 GPA will be admitted.
- (c) More applicants had a GPA of 3.5 than had a GPA of 2.5.
- (d) Some of the students with a score of less than 1,200 on the admissions test and a GPA of less than 2.5 were admitted.

110. Only 75 years ago, the best fishing in the world was the Grand Banks of the North Atlantic. But now overfishing and man's pollution have decimated the area. There will be no fishing industry in the Americas in a few years. The waters off Newfoundland now yield less than the catch of five years ago, and less than one quarter of the total of ten years ago. The cod has almost disappeared. The numbers of fishermen in Newfoundland and New England have declined, and their yearly earnings are now at an all-time low. Yet radar has made fishing methods more efficient than ever.

Which one of the following identifies most clearly a faulty assumption in the reasoning of this passage?

- (a) The argument fails to consider that the decline in the catch may be due to factors other than pollution.
- (b) The argument assumes that the waters off Newfoundland are representative of all the American oceans.
- (c) The pollution of the sea may have been caused by natural as well as by human forces.
- (d) The argument does not allow for the possibility that the catch may increase in size in the next five years.

111. A number of lawsuits have been brought against popular singing groups charging that suicidal themes in their songs have led to teenage suicides. So far, the courts have found that the lyrics are protected under the Constitution. But what if this should change and a court decides that suicidal themes in popular songs are dangerous? In fact, the songs that have been charged so far are anti-suicide; they present sardonically the self-destructive behaviour of drinking, drugs, and escape by death. They describe a pitiful state of mind, but they do not endorse it.

Blaming suicide on the arts is nothing new. In the late eighteenth century, Goethe's popular novel *The Sorrows of Young Werther* was said to be the cause of a rash of suicides in imitation of the novel's hero. If we begin to hold suicide in books or music responsible for suicides in real life, the operas of Verdi and Puccini will have to go, and *Romeo and Juliet* and *Julius Caesar* will disappear from the high school reading lists.

Which one of the following is an assumption necessary to the author's argument?

- (a) A lyric presenting suicide in a favourable light should not have Constitutional protection.
- (b) Literature or music cannot directly influence human behaviour.
- (c) Freedom of speech is most threatened by our personal freedom.
- (d) The audience, not the performer, is responsible for the audience's actions.

112. Archaeologists have come to the support of Arctic anthropologists. A small minority of anthropologists assert that Stone Age tribes of the Arctic domesticated wolves and trained them to haul sleds. Excavations have recently found evidence to support this claim. Archaeologists have found wolf bones near the site of a Stone Age village. They have also found walrus bones that might have been used on primitive sleds. The small minority of anthropologists believe that their theories have been proved. Which one of the following is true of the evidence cited in the paragraph above?
- It conclusively contradicts the anthropologists' conclusions.
 - It neither supports nor refutes the anthropologist' conclusions positively.
 - It conclusively supports only a part of the anthropologists' conclusions.
 - It supports the anthropologists' conclusions authoritatively.
