 - b. **Self attested photocopies of documents in support of age, qualification, experience etc.**
 - c. **Self attested photocopy of Identity Proof (Voter ID card / PAN card / Driving License / Aadhar card / Passport).**

Guidance Note for States on “The Bridge Programs on Certificate in Community Health for Nurses”

A. ABOUT THE COURSE

Background: Trained and competent human resources are essential for an effective health care delivery system. There is a pressing need to strengthen health sub centres to provide Comprehensive Primary Care including for NCDs. Global evidence suggests that suitably trained (3-4 years duration) service providers can provide considerable primary care. As one of the measures to increase the availability of such appropriately qualified HR, especially in rural and remote areas, on 13th November 2013, the Cabinet approved the introduction of a 3&1/2 year Bachelor of Science in Community Health (BSc CH) Course in India. However, the uptake for this course has been slow and if some Universities were to start the course, the first batch of professionals will be available for recruitment only by the end of the fourth year. On the other hand, qualified Ayurvedic doctors and B. Sc/ GNM qualified nurses are available in the system, who could be trained in public health & primary care through suitably designed ‘Bridge Programs on Certificate in Community Health’. Such qualified human resource may function as Mid Level Health Care Providers and called ‘Community Health Officers (CHOs)’ and posted at health Sub Centres; which could be developed as ‘Health & Wellness Centres’.

The BSc (CH) Curriculum is the benchmark for developing this bridge course and these MLHPs will be primarily deployed at Health & Wellness Centers (or Sub Centers). They would possess the necessary knowledge and competencies to deliver comprehensive primary care services and implement public health programmes.

Course Outline: The **Certificate Programmes** will be rolled out by IGNOU. Theory classes and hands-on Practicum training will be organized at Program Study Centres and Health Centres (District Hospitals, CHCs, PHCs, Sub Centres, etc.) identified and accredited by IGNOU. In addition to this there would be community visits by students for field-based assignments and research projects.

Eligibility:

- a) Bridge Program on Certificate in Community Health for Nurses: **Diploma in General Nursing (GNM) or B.sc. Nursing with RNRM no.**

Medium of Instruction: English/ Hindi for teaching as well as assessments

Course Duration: Six months

Academic Session: 1st January and 1st July of each year

Course Objectives: Based on the gaps identified through curriculum mapping between BSc (CH) and GNM & BAMS courses, the program would broadly cover the following:

- Introduction to National Health Programmes & Health Systems and adherence to national protocols of treatment and care, development of leadership and management skills for effective functioning of H & WCs.
